On the other hand, with this trip we are also financing a school in Enkakuni that has very few resources. Only with small **donations** from the travelers who have participated in the trip, we have been able to buy **basic** resources. Safaris in the Southern National Tsavo and Lake Nakuru.

The Safari starts in Eastern National Park, in the south of Kenya. Our guide will pick us up in Nairobi and with a 4x4 we will start the journey to the Tsavo National Park, famous for its large herds of elephants. A day's drive will take us to Southern, where we will see a unique species of zebra and hundreds of other animals.
Southern National Reserve is famous for the number of elephants that can be seen there and for the Cover's zebra, unique species in the world. Our accommodation in the Tsavo National Park is in a luxury camp with a swimming pool and views more other national parks.
Then we will continue to the Lake Nakuru National Park, famous for its pink flamingos, which number in the millions. Also, famous for the presence of white Rinoceros and several rhinos in the lake. A real spectacle.

Safari in the Maasai Mara

The Maasai Mara is the most famous reserve visiting the Lemek Conservation Area, inside the Maasai Mara. The Lemek Conservation area is an area that belongs to the Maasai Mara, but is on the outskirts of the National Reserve. This allows the Maasai people to live in the area and to have their livestock. Tourists can enter the Lemek Conservation Area and the Maasai Mara but with fewer cars around them, that is, it is a place where the animals live more quietly, and the local people live in peace.
It is a Maasai area, where Maasai live, so we public there the whole area perfectly well and can move around freely. An important detail is that they have access to certain specific areas that hotels or large agencies do not have, since the Maasai communities themselves manage the tourism in their area and the benefits are distributed among them. One of the advantages of being outside the National Reserve is that the rules are different from a national park, and we will be able to do many more activities such as, for example, getting out of the car inside, watching the sunset or the middle of the night, or even spending the night in the Maasai Mara.
