Great Migration Kenya Safari – 5 days

Masai Mara National Reserve, Narok, Rift Valley, Kenya

At Trip to Help, we believe in **conscious, sustainable and fair-travel**. Our **Great Migration Kenya Safari** taking place between July and October, offers a front-row seat to the awe-inspiring wildebeest crossing at the Mara River. This isn't just a natural spectacle—it's an opportunity to contribute positively to the Maasai community and local ecosystems conservation. Unlike many safaris, our journey is designed to give back to the communities we visit, ensuring that tourism truly goes beyond mere tourism. Our safari ensures that the Maasai, with their deep ancestral connection to the land, are not only your guides but also key decision-makers in the activities offered. The benefits of your trip directly support the NGO's projects in the Maasai Mara, making a tangible difference in the community.
Are all guides the same? In our point of view, no. There are better and worse ones that can change the trip for the better or for the worse. Our guides are part of the Maasai tribe, they have extensive knowledge and deep connection to the land that goes back centuries, who will take you to see the famous wildebeest crossing.
Every step of this journey will not only connect you with the majesty of nature, but will also contribute directly to the well-being and future of the Maasai community.
