

Trip to Kenya and Zanzibar for 10 days.

📍 Kenya

What can I expect from this 10-day trip to Kenya and Zambia?

the 10-day trip to Kenya and Uganda, we will combine the activities of a safari through some of Kenya's most famous national parks with a visit to the Lake Tanganyika region of Uganda. The trip will explore the lush savannah, Lake Malawi National Park, and the Lake Tanganyika Area of the World Heritage Site, where watching the hippos in the hotland Channel.

In addition, our experience will contribute to an education and women's empowerment project, which we will be able to learn about in detail during our stay in the Ugandan State.

Our trip will be a combination of a safari through some of the most beautiful natural areas, and a few days on the beach in a beautiful beach in Tanzania. During the first part of the trip we will discover some of the country's most iconic landscapes, from the lakes of the Rift Valley to the great grasslands of the Serengeti, always enjoying the day of watching the animals in their natural environment and the magnificent of the environment.

place to observe horses, gazelles, buffalo, and a great variety of birds. From the shores of the lake and the forests to the vast plains and mountains there are well over 100 miles. **Learn More** [Learn More](#) [Join Us](#)

During the last three nights of our safari in Kenya we will stay in an eco lodge that belongs to the Maasai community. It is accommodation with glamping style tents and all the comforts, which belongs to a well-known Maasai leader and

Searchful groffles during our safari in the Masai Mara. Photo: Jan Thomas Esau.

From the first day, we will use the advantages of living like this in this area:

- It is a clean landscape, so there are no waste around the animals, less helping and in short, more transparency. (There are no waste around the animals and there is no waste consumed by the animals to go to the garbage area like the others.)
- Feeding the calves will be able to get close to the animals, leaving the heads of the cow and going into the sawnash.
- With our work, we will help Shishu to the WTO led by William, which was founded to help the community through tourism.

More than 80% of the money from your trip goes to the community. The rest is used for the maintenance of the village, such as the women's village, which they accompany after they have been damaged by their new families.

We will also use the best natural of the sawnash, surrounded by hundreds of animals in the wild. In this area, unlike the others, there are no fences and there are no fences on natural cattle and cows, so we can't get lost surrounded by animals. This kind of experience is available through the work that William and the WTO do in the area, and thanks to this, they

During this 10-day trip to Kenya and Tanzania with a safari in the Mount Meru, we will visit a **community where you will**

The Moon Shave's full-day safari, which lasts until sunset, is another star activity. On that day, we will leave our camp in the most beautiful location we have ever experienced, under a large **red umbrella of the same color** without any other leaves.

Visiting Zanzibar Island
After a long day of culture, wildlife, and Maasai culture, we will conclude our trip in Zanzibar for the last four days of our

After a safari in Kruger, Zanzibar is the perfect island to spend a few days relaxing. It has great beaches, ideal for walking, kite surfing or just relaxing on the beach under a palm tree. These days, you will visit Zanzibar on your own, you can do a Blue Safari, go to see dolphins, not fish on a secret island and see some of the most beautiful coral reefs in the world. This activity, which is not included in the price, can be booked either in person or through us. We can help you to book a Blue Safari in Zanzibar. You can also rent a motorboat and move around the island freely, visit the Jozani Park, where there is an endemic monkey.

Announcements for our meetings in France and England

As **Lake Umbagog**, we will stay in a peaceful environment surrounded by nature, perfect for enjoying the lake landscape.

What is the price of the trip to Kampas and Zante?
The price of the trip to Kampas and Zante is **from 12,000 per person**, including two people together, in **low season 2017**
January, February, March, April, May, November and December except Christmas dates.
Price includes: 10 days of accommodation in 4* hotels, breakfast, airport transfers, travel insurance, visa fees, and more.

For the rest of the month and dates of the year, the price may vary within this range, depending on the specific dates of the stay, the availability of accommodations, and the room category chosen in Ecuador.

The price includes your accommodations throughout the trip, the safari and planned activities, government fees, the rail to the

Not included are international flights or the internal flight between Nairobi and Zanzibar.

Tour Itinerary

Day 1 : Nairobi – Lake Naivasha

We will begin our adventure in Kenya by leaving Nairobi and heading towards **Lake Naivasha**, one of the largest freshwater lakes in the Great Rift Valley.

The journey will allow us to start discovering Kenya’s landscapes, leaving Nairobi behind and gradually entering a much more natural environment. Once we reach the lake area, we will take a boat trip and enjoy the scenery and our first encounters with African wildlife.

Lake Naivasha is particularly interesting because of the large number of birds that inhabit its surroundings, as well as hippos and other animals that can be found in the area.

We will also see how the rising water levels are affecting the surrounding environment, and not always positively: trees are dying, animals are losing space due to the rising lake level combined with tourism pressure — including hotels built along its shores — and buildings that were once in use have now been flooded.

Meals Included
Lunch, Dinner,

Day 2 : Safari Lake Nakuru

After breakfast, we will continue our journey towards **Lake Nakuru**, one of Kenya’s best-known national parks and one of the areas with the greatest diversity of wildlife in the country.

During the day, we will go on a safari through the park, exploring its different landscapes in search of some of its most iconic inhabitants. Lake Nakuru is particularly well known for its **white and black**

rhinos, as well as giraffes, buffaloes, zebras, lions and numerous species of birds.

The landscape will also change as we make our way through the park, combining the lake with forests, savannah areas and vast open spaces.

It will be a full day immersed in nature and wildlife before continuing our journey towards one of the most special areas of the trip: the **Masai Mara**.

Meals Included
Breakfast, Lunch, Dinner,

Day 3 : Nakuru - Maasai Mara

Today we will leave **Lake Nakuru** behind and head towards the **Lemek Conservancy**, in the Masai Mara region.

The journey will gradually take us towards the great plains of the savannah, as the landscape changes and we begin to encounter the first Maasai communities in the area.

We will arrive in Lemek and settle into our accommodation, an **eco-lodge belonging to the Maasai community**, made up of safari-style tents with private bathrooms and hot water.

From this moment on, a very special part of the journey will begin: **three nights experiencing the Masai Mara from a different perspective**, accompanied by Maasai guides who know this land and its wildlife like no one else.

In the afternoon, depending on our arrival time and the conditions of the day, we may enjoy our first activity or safari in the area.

Meals Included
Breakfast, Lunch, Dinner,

Day 4 : Safari in Maasai Mara

Today we will spend the entire day on safari. And we will have the opportunity to experience it in a truly unique place, while knowing that our safari directly contributes to the local community.

The community itself manages the **Lemek Conservancy** and receives the benefits generated by the safaris carried out here. We will quickly notice that we are much more peaceful than in the National Reserves, where there is a much higher number of tourists.

We will see a great variety of wildlife, from **lions and elephants to zebras, cheetahs and wildebeest**. With one important difference: here, the animals are much more relaxed and naturally move from the Reserves towards these conservation areas.

Another great advantage is that we will be able to enjoy our **lunch in the middle of the savannah**,

accompanied by our Maasai guide and surrounded by nature.

Meals Included
Breakfast, Lunch, Dinner,

Day 5 : Visiting NGO projects + Rhino Sunset

In the morning, we will have the opportunity to visit **the project's school** and a **Maasai women's manyatta**, which is part of a women's empowerment programme.

In the afternoon, we will visit a **rhino sanctuary**, home to a critically endangered species, particularly the white rhino. Hunting is prohibited in Kenya, but unfortunately, poaching still exists in order to illegally trade the horn of these animals.

We will learn about the essential work carried out by a **White Rhino Sanctuary**, which protects, cares for and monitors a female and a male white rhino 24/7.

We will be accompanied by the rangers responsible for their protection and will have the opportunity to see these spectacular animals up close.

Afterwards, we will continue our safari until we reach one of the most special moments of the trip: **one of the most beautiful and spectacular sunsets you will ever see**, right in the middle of the savannah.

Meals Included
Breakfast, Lunch, Dinner,

Day 6 : Maasai Mara - Zanzibar

Today calls for a good breakfast and a journey back to Nairobi to catch our flight to paradise: the island of Zanzibar.

Depending on our departure time, if we have enough time, before heading to Nairobi we can go on an early morning **walking safari** with our Maasai guide and warrior. Walking safaris are not usually possible in most areas, and are actually forbidden in many other places. Here, accompanied by the Maasai, we have the opportunity to experience the savannah on foot.

Later, we will begin our journey back to Nairobi from our accommodation in the Mara, accompanied by our driver, who will drop us off at the airport.

This journey can also be made by **small aircraft**, which is much faster and allows us to see what the savannah looks like from the air. This option comes with an additional cost, so feel free to ask us about it if you are interested.

Before our journey back to Nairobi, if our stay in the Masai Mara coincides with a Sunday, we can visit the nearest town, Aitong, where we will discover how Christianity and traditional Maasai beliefs come

together: we will attend a Maasai church service.

Meals Included
Breakfast,

From 6 to 10 : Zanzibar

Once we board our flight to Zanzibar, our days of independent travel, relaxation and beach time begin.

It is the perfect way to round off our 10-day Kenya adventure combining safari and beach.

Zanzibar, and its capital, Stone Town, a UNESCO World Heritage Site, will delight us with its landscapes, relaxed pace of life and welcoming people. Here, it often feels as though time has stood still. During these days, travelling independently, we can stay in a beautiful eco-lodge right in front of the beach.

From there, we can go snorkelling on a **Blue Safari**, where we may have the chance to see dolphins and enjoy lunch on a “secret” island.

On the final day, after spending **four nights in Zanzibar**, we will leave for the airport to catch our international flight back home.

Meals Included
Breakfast,

Xavi
